

Social Value Summary

Strategic Data Consultancy Ltd

Document Ref: SDC-SUM-SV-001

Version: 1.0 – Initial Version

Date: 13 April 2026

Review Date: 12 April 2027

1. Purpose

This document summarises Strategic Data Consultancy Ltd's (SDC) approach to delivering social value through its operations and services.

SDC delivers social value through a practical, data-led approach to asset management and building services consultancy, supporting clients in making informed decisions that reduce waste, improve efficiency, and deliver long-term value across their estates.

2. Delivering Sustainable Outcomes

SDC provides accurate asset data, condition assessments, and lifecycle modelling that enable clients to:

- Avoid unnecessary asset replacement
 - Extend the operational life of building systems
 - Reduce capital expenditure and embodied carbon
 - Support Carbon Reduction Plan (CRP) objectives
-

3. Efficient and Responsible Delivery

SDC seeks to minimise the environmental and operational impact of its services by:

- Planning surveys efficiently to reduce repeat visits
 - Using digital tools to limit paper use and improve data accuracy
 - Reducing travel where practicable through structured delivery planning
-

4. Supporting Better Decision-Making

SDC's outputs are designed to:

- Improve visibility of asset condition and risk
 - Support prioritised investment decisions
 - Enable long-term estate planning aligned with client objectives
-

5. Professional and Ethical Practice

SDC operates with integrity and transparency, supported by a suite of policies including:

- Health and Safety Policy
- Environmental Policy
- Equality, Diversity and Inclusion Policy

- Anti-Bribery and Ethical Conduct Policy
-

6. Proportionate Social Value Delivery

As a specialist consultancy, SDC focuses on delivering meaningful, project-specific social value through:

- High-quality data and reporting
 - Efficient delivery reducing disruption and cost
 - Supporting clients in achieving operational and sustainability goals
-

7. Commitment

SDC's approach to social value is embedded within its core service delivery, ensuring that each project contributes to improved outcomes for clients, assets, and the wider built environment.
